Dab of Humor

I told my wife I saw a deer on the way to work. She said how do you know he was headed to work?
* * * * *

I lost my job at the bank on my very first day. A lady came into the bank and asked me to check her balance so I pushed her over!
* * * * *

Just once, I want the prompt for username and password to say, "Close enough."
* * * * *

When my toothpaste dropped to the ground, I was crestfallen.

Good News Online

Compiled From December, 2022

[Click on the links to read the entire story.](#)

Researchers at the University of Surrey have now developed a robot fish that can draw microplastics from water and store them in its internal cavity. The fish moves in water with its mouth wide open, collecting microplastics and storing them...

...scientists discovered that instead of waiting for nature to take its course, they can set up a "skeleton" of steel on which coral polyps can multiply. Scientists send a small current through the steel, supercharging the growth of calcium carbonate, the backbone of reefs.

[THE COOL DOWN](#) (12/8/22)

* * * * *

A new type of eco-friendly material, geopolymers, has received significant attention as a replacement for conventional concrete. A geopolymer is a hard and durable human-made substance. Geopolymer production produces up to 90% less CO₂ emissions than conventional concrete.

* * * * *

One currently untapped source is the water vapor above the oceans, which is almost limitless as far as supplies go. A new study outlines how harvesting structures could be used to convert this vapor into drinkable water.

[SCIENCE ALERT](#) (12/25/22)

* * * * *

Headache-inducing plastic waste such as printer cartridges and plastic bags are being turned into aggregate material for asphalt road mixtures around the country...All in all plastic roads could be a big part of future societies, as the programs all show good results, and for the moment at least, no microplastic pollutant runoffs in several states.

[GOOD NEWS NETWORK](#) (12/28/22)

* * * * *

Name a type of organic matter and chances are some type of organism has evolved to eat it. Plants, meat, algae, insects and bacteria are all consumed by different creatures, but now scientists have discovered something new on the menu - viruses.

Our mission is to enrich fellow baby boomer's and silent gen's technology skills to enable you (or a loved one) to have more fun online while also being safer.

Learn to be more effective on your computer, tablet or smartphone. Help to avoid being ripped off by scams or falling for sales ploys that frankly rob us of our hard earned resources. (Click below right to learn more.)

Judy and Michael

Short Video

A "Short" is a video that lasts anywhere from just a couple of seconds to two minutes depending on the social media platform it is on. It plays and automatically repeats until you close it.

We found them entertaining and started producing some ourselves. View two on YouTube:
